

**CITY COUNCIL EXECUTIVE COMMITTEE MEETING
CITY COUNCIL CHAMBERS, THIRD FLOOR, CITY HALL,
#1 CITY HALL PLACE, PUEBLO, COLORADO 81003.**

**MONDAY, AUGUST 11, 2025
5:30 PM**

Individuals Requiring Special Accommodations Should Notify the City's ADA Coordinator at (719) 553-2295 by Noon on the Friday Preceding the Meeting.

Executive Committee meetings are special meetings of the City Council and are informal Council meetings for the purpose of receiving information and discussion among Council Members; no official action is taken at such meetings. The public is invited to attend, but public comment is generally not received unless otherwise noted.

| Eva Cosyleon, MPO Manager | |
| 15 minute presentation | |

ADJOURNMENT

What is a roundabout?

A roundabout is a circular intersection design where traffic travels at low speed around a central island and entering traffic must yield to circulating traffic.

Roundabouts
aren't new to
Pueblo

Existing roundabouts

Why Roundabouts

- Reduce fatalities and serious injuries by at least 76%
- Reduce speed
- Traffic flow keeps moving

Why roundabouts

- Reduce conflict points

Roundabout safety:

Navigating a Roundabout Quick Guide

By following these steps, you'll ensure a smooth and safe journey through any roundabout!

1. Approach the Roundabout
2. Yield to Traffic and Pedestrians
3. Enter the Roundabout
4. Navigate Through the Roundabout
5. Signal Your Exit
6. Exit the Roundabout

Roundabout safety:

Do look and yield

Look left before entering the roundabout, and yield to any traffic already in the roundabout.

Don't stop in the roundabout

If you find yourself needing to stop, please exit the roundabout and pull over wherever possible.

Do go 10-15mph

Drive through the roundabout at 10 to 15 mph, this helps to keep you predictable to your fellow drivers.

Don't forget to yield

Remember to always yield to pedestrians and bicycles, cars already in the roundabout, and large vehicles and emergency vehicles trying to enter the roundabout.

Do read signage

The Signage before a roundabout and lane markings will inform you of your turning options. Slow down to examine the signage before picking your lane.

Don't move lanes

Trying to move lanes in a roundabout is dangerous and can lead to a crash between yourself and other roundabout users.

Roundabout safety:

Choose the right-hand lane unless road markings indicate otherwise.

Activate the right turn signal before entering.

Keep the vehicle in the right lane and exit.

More roundabouts coming!
